PROFILE

Computer Science student at Kathmandu University and cybersecurity enthusiast with Cambridge A-Level distinctions in Mathematics and Computer Science. Hands-on experience in cybersecurity, networking, Linux, Python, backend development, and cloud technologies. Co-developed an award-winning college-level IoT air quality monitor and contributed to ICMB's first website backend. Cisco-certified in Networking and Cybersecurity, with 31+ certifications and experience organizing national-level events.

KEY ACHIEVEMENTS

- 3rd Place & Best UI/UX Award – Cambridge Code League Hackathon, for MeroAushadhi, a health app with Nepali language integration
- 1st Place – College STEAM Competition, for AQ Sentinel, an IoT-powered real-time air quality monitoring system
- Co-Led IT team to build the first Interact Club website in the region (icmatribhumibaluwatar.org) with a fully integrated backend
- Earned 31+ verified certifications across networking, cybersecurity, cloud, programming and ECAs.
